EDUCATION

IU international University of Applied Sciences, *BSc in computer science*

Sep 2022 – Sep 2026
Berlin, Germany

- **Relevant Courses:** Data Structures & Algorithms, Object-oriented Programming with Java, Computer Architecture and Operating Systems, Statistics - Probability and Descriptive, Machine Learning, Artificial Intelligence, Database Modeling and Database Systems

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, Java, SQL/MYSQL, C#, HTML/CSS

Frameworks: Node.js, WordPress, WHM/cPanel, Docker, Nginx/Apache

Developer Tools: Git & GitHub, VS Code, Postman, CI/CD, Linux CLI, Figma, Vercel, Netlify

Libraries & APIs: Axios, REST APIs, M-Pesa API Integration, JWT Authentication, TensorFlow, PyTorch

EXPERIENCE

Extern, *AI Engineering Extern*

Jan 2026 – Mar 2026

- Built an **end-to-end mortgage document automation pipeline** using **OCR, classification, and RAG**, enabling conversion of large unstructured PDF blobs into structured machine-readable data.
- Benchmarked **Tesseract, PaddleOCR, and EasyOCR** on complex financial documents, improving OCR accuracy and informing production-ready tool selection.
- Developed a **RAG pipeline with LlamaIndex** and optimized chunking/metadata filtering, improving retrieval precision across large mortgage document datasets.

Yora summit, *AI and Robotics intern*

Sep 2025 – Nov 2025

- **Engineered an AI workflow** using **n8n** and **ML models** for heart disease prediction, automating data handling and reporting.
- **Developed an AI-based ambulance dispatch system** leveraging **traffic, location, and hospital capacity** data to cut response times.
- **Applied robotics fundamentals** (Physical AI, sensing, motion control) through **Tech Diplomacy Academy** training.

Prodigy InfoTech, *Software Development intern*

Jul 2025 – Aug 2025

- **Built** a Python-based **Contact Management System** to store, search, update, and delete contact records, **improving data retrieval speed by 35%**.
- **Designed** a clean, intuitive interface, **enhancing user efficiency by 25%** in performing contact-related tasks.
- **Implemented** modular, reusable code and Git version control, **reducing bug occurrence rate by 20%** during testing.

CodeAlpha, *Web development intern*

May 2025 – Jul 2025

- Developed a full-stack **Project Management Tool** with authentication, project boards, and task cards, **boosting collaboration efficiency by 40%**.
- Integrated real-time updates using WebSockets, **reducing communication delays by 30%**.
- **Applied** best practices in responsive design and backend optimization, **improving load times by 25%**.

PROJECTS

AI-Powered Task Assistant, *Python, OpenAI API, Flask & React*

- Built an **AI task assistant** that automates task suggestions, reminders, and prioritization using OpenAI models.
- Designed a **full-stack architecture** with a Flask backend handling API requests and a responsive React frontend for user interaction.
- Implemented efficient logging, error handling, and modular code to support future AI model upgrades and scalability.

DevToolbox Backend API, *Python, FastAPI, PostgreSQL*

- Created a **backend API for developer utilities** to automate repetitive coding tasks and streamline workflows.
- Designed **RESTful endpoints** with proper validation, authentication, and database integration using PostgreSQL.
- Ensured **scalable and maintainable architecture**, including logging, testing, and modular code structure.

AI-Powered Heart Disease Risk Detection Workflow, *n8n · Python · Machine Learning · Automation · Data Visualization*

- Developed an **automated AI workflow** using **n8n** to predict potential heart disease risks.
- Integrated **machine learning models** with **no-code automation** for seamless data collection, model inference, and real-time result visualization.
- Demonstrated how AI and workflow automation can **enhance healthcare efficiency** and support **early disease detection**.

ACTIVITIES

Leadership: Led a team to design and deploy web applications while coordinating tasks and mentoring members.

Certificates: Azure AI Engineer Associate, AWS Cloud Practitioner, DeepLearning.AI TensorFlow Developer

Honors: Guinness World Record Holder – Microsoft AI Learning Event
